Skills

PROGRAMMING

C/C++ • HTML/CSS(with Bootstrap) • JavaScript • SQL

PROBLEM SOLVING

- Good in problem solving. Solving dsa problem on daily basis on leetcode.
- Solved more than 420+ Problem on leetcode -> **rakeshdhariwal61**
- Solved more than 200+ Problem on hackerrank -> **rakeshdhariwal61**

LEARNING/EXPLORING

Java • Devops tools • Docker

- React
- MERN Stack

CORE SUBJECTS

- Operating System
- DBMS
- OOPS

Minor Projects

MONKEY WEATHER

REACT, BOOTSTRAP, NEWS-API

📅 May 2022

📍 C

reate a fully responsive weather site which uses AccuWeather- Api to fetch the weather. Can search country/state wise weather. Things I learned during the project fetching and parsing of API. React Hooks, React State, Event Listener. 🐙 GitHub **Source Code Link**

MONKEY NEWS

REACT, BOOTSTRAP, ACCUWEATHER

📅 April 2022

📍 C

reate a fully responsive news site which uses News-API to fetch the news. Also there is a category section help to find topic wise news. Things I learned during the project fetching and parsing of API. React Hooks, React State, Infinte Scroll. 🐙 GitHub **Source Code Link**

Major Project –Under Development

MONKEY-APP

REACT, NODE.JS, EXPRESS, MONGODB, REST-API

Working on a fully responsive app build over React with the help of Bootstrap and custom CSS. Idea behind the project is to implement all the full stack skills.

FEATURES

- Authentication using Google, GitHub, LinkedIn
- Customizable Home Page
- Will combine my minor project too with notes taking section also.
- Modern and smooth UI.
